Past CEP Grant Recipients

Vision Australia

Ansvar's grant funded an adaptive technology project for students with vision loss. "The 2014 Ansvar CEP Grants made it possible for Vision Australia to support six individuals who are blind or have low vision with a Further Education Bursary of specialised adaptive technology, specific to their needs and level of vision. These Bursaries help to ensure that these students can fully participate and succeed in their chosen studies," said Deb Renshaw-Jones, Vision Australia's National Submissions Manager.

Operation Stitches

Patrick Templeton, Founder and CEO of Operation Stitches, said the funding received from Ansvar for their youth program was essential to running the Oneighty Connection program. "The Ansvar grant will help the project to reach those who need it most, and allows us to offer free educational coaching to disadvantaged youth to bring hope and make a meaningful difference in their lives and their future vocation," said Patrick.

20th Man Fund

Ansvar provided funding for the 20th Man Fund's Links to Education and Employment Pathways (LEEP) program. "Our goal is to help young people realise their true potential; to become meaningful and contributing members within society, rather than a burden. We are grateful to Ansvar Insurance for financially supporting such important education and employment initiatives," said Jim Markovski, General Manager Youth Services.
