

Online Risk Packages for Ansva Customers

Offer

Ansva Risk is pleased to provide a refreshed set of easy to use online risk packages that will assist you in managing incidents and employee/volunteer onboarding. The online risk packages focus on workplace health and safety and workforce management solutions. They assist with operations and improve workplace safety and compliance that allows organisations to get on with the job at hand.

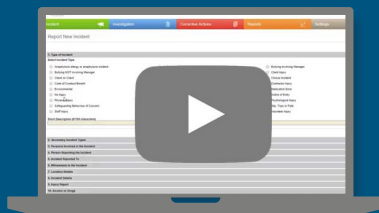

Ansva Risk has partnered with industry specialists to provide **easy to access and cost effective online tools** that support customers managing their risks.

By taking advantage of these Ansva Risk endorsed online tools, organisations save time and resources in sourcing their own online workplace health and safety tools.

Incident

Online incident reporting enables staff, contractors and volunteers to report an incident or issue as soon as it occurs.

Learn

Organisations have the ability to create and deliver online induction and training courses for employees, volunteers and contractors. They also have the option of using Ansva Risk's pre-written training courses.

Key Features

1. Report incidents as soon as they happen on desktop and mobile devices
2. Assign immediate corrective actions
3. Follow the investigation process to ensure the lifecycle of the incident is handled and tracked efficiently
4. Extract reports on all incidents and themes

Key Features

1. Assign courses to employees, volunteers and contractors
2. View progress on completion of courses
3. Certificates including declaration and pass score are produced on completion of the course
4. Organisations are in full control of their content, can easily edit induction and training courses and create questionnaires

Pricing

Ansva Risk has negotiated a tailored and **competitively priced** online risk package that is exclusive to Ansva customers.

License Type	Users	Cost (ex GST)	Duration
1	1-50	\$850	1 Year
2	51-100	\$1,800	1 Year
